

## AS OF JANUARY 2019 ALL LIGHTING IS IN SCOPE

Please note nearly all lamps and most luminaires are captured by dual-use so should be reported as B2C. If you believe your EEE is B2B then please contact us prior to reporting your data.

**A)** If it's sold as a lamp/bulb/LED module only = **CAT 13 (B2C)**

**B)** If it's sold as a fitting (luminaire) without replaceable lamp/bulb/LED module.

Dual-Use = **CAT 5 (B2C)**

Business Use = **CAT 5 (B2B)**

**C)** If it is sold as a complete unit - i.e. the fitting (luminaire) integrated permanently with the LED light source.

Dual-Use = **CAT 5 (B2C)**

Business Use = **CAT 5 (B2B)**

**D)** If it's sold as complete unit with an interchangeable lamp/bulb/LED module...

Interchangeable Lamp/Bulb/LED Module  
= **CAT 13 (B2C)**

(as explained in A above)

Fitting (luminaire) = **CAT 5 (B2C OR B2B)**

(as explained in B above)

## OBLIGATION TYPE DEFINITIONS

**B2B** : All of our obligated EEE is specifically designed for business use only and is very unlikely to be used by the household consumer.

**B2C** : All of our obligated EEE is specifically designed for household consumer use only.

**BOTH** : We have obligated EEE which is both B2B and B2C.

\* EEE designed for both household and non-household use must be reported as B2C (this is referred to as dual-use). You can also view the [governments guidance here](#).
